

How clean is your willy?

As every colt, stallion or gelding owner knows, a filthy willy really is a sight for sore eyes, and the thought of cleaning it can bring on a headache even for the most intrepid horse person.

Not Anymore! Introducing the amazing, all-natural, sweet smelling, no more scrubbing, so easy

Willy Wash

The squeamish need never expose the pizzle again - you can simply syringe 2.5 mls up each side of the sheath and let The Horse Herbalist's miraculous mixture do the rest!

I have received and have used your willy wash and all I can say is WOW!!! My paint horse gelding has had a dreadful sheath to clean for the 6 years I have owned him. Cleaning has been a drama with kicking a certainty. I sprayed the willy wash on his pizzle a few days ago and it now looks as clean as a whistle. Thanks for your wonderful product!
Sandra Kirby, Victoria

I was intrigued to read about your new product Willy Wash and prior to braving the unbroken gelding, I trialled it on my two mares' teats. It smells great and feels lovely and is so easy to apply and then all that brittle gunk I normally have to peel off, just melts away - amazing! I will go forth and get under the gelding - keep up the great work!
